

Informational Update to ITAC

Agency Vision

Children thrive in family environments free from abuse and neglect.

Agency Mission

Successfully engage children and families to ensure safety, strengthen families, and achieve permanency.

Childs Replacement Program (Guardian)

State of Arizona – Department of Child Safety

April 21, 2021

Project Health Card

Overall Delivery Project Health is Yellow

Schedule	Yellow	<ul style="list-style-type: none">The current Schedule is Green. Go Live occurred on 02/01/2021. Remaining scope planned to complete be 06/30/21. Reporting still a challenge
Scope	Green	<ul style="list-style-type: none">V1.0 MVP functionality in February release.
Budget	Green	<ul style="list-style-type: none">The program budget is green and within variance
Risk	Green	<ul style="list-style-type: none">The program is managing all open and active risks with mitigations
Issues	Yellow	<ul style="list-style-type: none">Currently the program is focusing on project delivery for report creation

- For Program Delivery, only two items remaining, Reports and Childs Decom (CH17002)
- Program/Project health only refers to in scope items, M&O is separate

Project Updates

Open items from the last ITAC meeting:

- No open items from the last ITAC meeting

Changes since the last update:

- Program in warranty period upon resolution of Sev 2 bugs defined during warranty less any new requirements, targeted completion is Sprint 10 (4/20)
- Continue to monitor the system for bug and data issues
- Consistently resolving 40+ bugs a week through patch deployment process
- Report's creation is still a critical focus for the team. Workarounds developed where possible
- Business is driving prioritization of requirement and bug fixes based on business need (continue to groom backlog)
- System architecture remains stable
- Summary of Focus areas
 - Business stabilization through continued bug fixes
 - Continued project delivery for reports
 - Process improvement

M&O Updates

- Business heatmap allows the team to focus on critical areas of each line of business
- Ongoing M&O efforts and requirements driven by the business (fixes, new/backlog requirements)
- Guardian team is working to resolve Document Management related issues and vendor is working on intermittent timeout issue
- Guardian team is working to resolve Invoicing and Payment job errors as they are found and prioritized
- Guardian team is working on the Service Request/Approval bugs and changes
- DCS Business team is working to resolve data issues and clean up were found in Service Approvals, Invoices, and Payments
- Portal issue has been resolved and reopened for FH registration and enrollment. 2,300 registrations sent
- Electronic invoice with providers continues without disruption
- After FH and providers register in Portal, Portal invoicing process to start in May
- Reporting team will have several additional team members added to fill vacancies and the new process for data mapping and views is in progress

M&O Updates

As of 04/04/21:

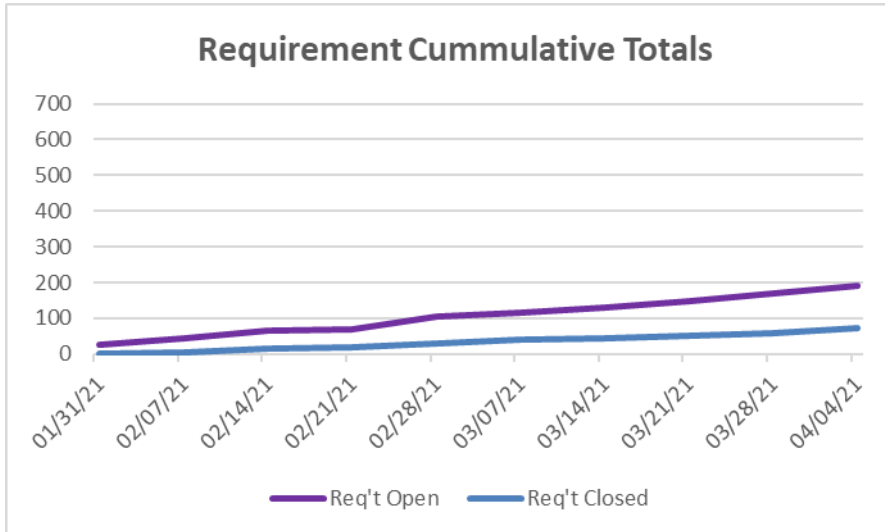

Bugs

Bug Cummulative Totals

Requirements

Requirement Cummulative Totals

% of Bugs by Severity

% of Req'ts by Severity

- Opening more bugs than closing
- Opening and resolving less emergency (sev 0) bugs which supports the transition to M&O
- Starting to open more cleanup, and related as expected with any solution

Project Updates

As of 04/09/21:

Data Reports Scope Query	Total Items: (Bugs & Req'ts - All states) (By Iteration Path)	Open Items (Bugs & Req'ts, State = Active or Proposed) (By Iteration Path)	Resolved Items - No Prod Data Needed (Bugs & Req'ts, State = Resolved) (By Iteration Path)	Resolved Items Prod Data Needed (Bugs & Req'ts, State = Resolved) (By Iteration Path)	Closed Items (Bugs & Req'ts, State = Closed) (By Iteration Path)	Issues	Triage (No longer includes reports and ODS in these 2 tiles. They now appear on the Exec Reports Dashboard) Reports Exec Dashboard			
R0: Hotfix Total Hotfix Audit Dashboard Total includes closed bugs as QA is closing them once they pass testing	All of R0 1001 Work items	Open: All of R0 360 Work items	Resolved: All of R0 25 Work items	Resolved: All of R0 22 Work items	Closed: All of R0 591 Work items	All Issues 45 Work items	Open Issues 33 Work items	Not Triaged 22 Work items	Not Triaged S0/1 10 Work items	
R0: Sprint 7 Version 1.16.37.x Start: 03/20/21 End: 03/26/21 Release Date: 03/30/21	Planned: Sprint 7 60 Work items	Open: Sprint 7 1 Work items	Resolved: Sprint 7 0 Work items	Resolved: Sprint 7 4 Work items	Closed: Sprint 7 55 Work items					
R0: Sprint 8 Version 1.16.38.x Start: 03/27/21 End: 04/02/21 Release Date: 04/06/21	Planned: Sprint 8 56 Work items	Open: Sprint 8 4 Work items	Resolved: Sprint 8 4 Work items	Resolved: Sprint 8 11 Work items	Closed: Sprint 8 37 Work items					
R0: Sprint 9 Version 1.16.39.x Start: 04/03/21 End: 04/09/21 Release Date: 04/13/21	Planned: Sprint 9 71 Work items	Open: Sprint 9 50 Work items	Resolved: Sprint 9 13 Work items	Resolved: Sprint 9 4 Work items	Closed: Sprint 9 4 Work items					

- 1001 are Sev 0 – 4 regardless of when identified
- Closed 591 since go-live
- 360 Sev 0-4 still open
- Warranty period planned to end after Sprint 10
- M&O will continue to prioritize and fix prioritized items in subsequent sprints

Updates since Go-Live

Reports:

- Updated/increased resources for reporting team
- Reports are moving through development with 3 out for business validation
- Data mappings for Intake and Assessment completed
- Automation for the operational data store (ODS) planned
- Holding Daily sessions to validate SQL queries

M&O Transition:

- Support transition underway with KT sessions ongoing, teams in place, and planned to complete in April
- Closed over 500 bugs
- Sprint 10 is final in warranty period sprint
- Business prioritizing the work for each sprint
- DCS continues to groom backlog of items based upon business priority as part of ongoing M&O

System Accesses:

- Auditor General and Ombudsman have received direct, remote access to Guardian

Updates since Go-Live

Payment Processing:

- Focus on stabilization (utilizing heatmap)
- Adoption payments for February, March, and April processed
- Foster & Kinship caregivers paid for Jan/February and March payments on track
- Contracting providers processing going faster
- Any Pending items caused by data migration are in process of cleansing
- There are couple of bugs that will be resolved in the next two to three weeks that will greatly assist in moving this piece of business to green.

Notes:
 March Variance is due to deliverable, invoice and payment timing.
 Cost re-baseline completed at end of September

APPENDIX

Program History

- The current DCS CHILDS application is under Federal Rules and Regulations called SACWIS (Statewide Automated Child Welfare Information System)
- In 2015, new rules and regulations, called CCWIS (Comprehensive Child Welfare Information System), were introduced. DCS is aiming to be compliant with these regulations with Guardian:
- CCWIS benefits over the current DCS SACWIS system include:
 - Accommodates changes in practice & technology
 - Provides flexibility to “right-size” systems
 - Promotes program and system inter-operability
 - Requires data quality processes
 - Reduces costs for development and maintenance
- With a CCWIS compliant system, the federal government provides funds to assist the State of Arizona with development and implementation. It also grants additional funds to help maintain and support Guardian, as long as the system supports social workers' automation needs to organize and record quality case information about the children and families receiving child welfare services in Arizona.

Program History

- CHILDS (Children's Information Library and Data Source) was implemented in 1997 as an efficient, effective and economical method to exchange child welfare information between various State and Federal Systems
- The mainframe system has since become large, complex and inefficient with some of the common complaints being:
 - Not user-friendly
 - Limited reporting
 - Lack of a mobile platform
 - Deficient searching and matching functionality
 - Poor data quality: lack of data integrity, known duplications and data errors
 - Lack of collaboration with other agencies and system interfaces
 - Incomplete service and provider management

Program Future State

Program Future State

The Guardian Program is a child-centered, user-friendly technological solution which provides quality data and improved processes to support all DCS work for the safety of Arizona Children. Some of the goals include:

Data Quality: Increased data collection and quality

Modular Design: More flexible and adaptive to allow for future changes

Cost Reduction: Easier system development and maintenance

Follows IT Standard: Promotes efficient, economical, and effective development

Increased Collaboration: Data exchanges with external systems

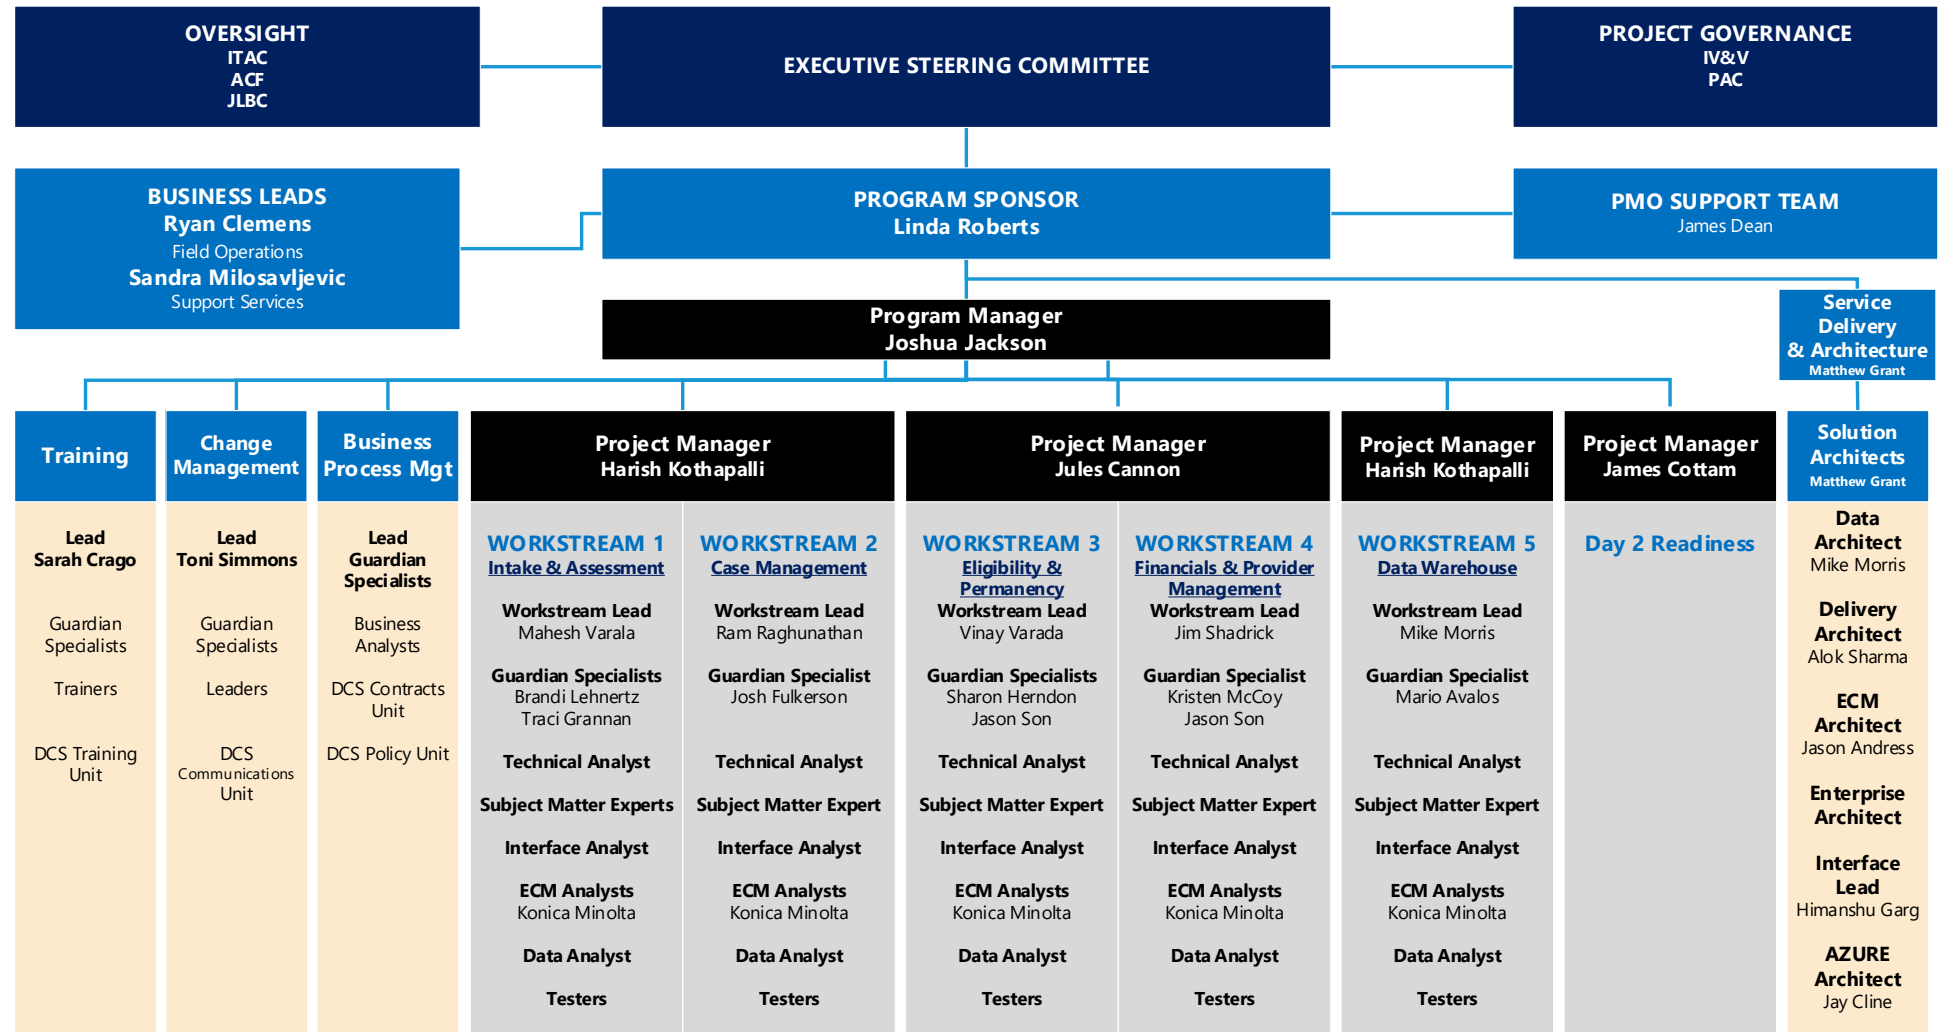

Shareable: Capable of being shared and reused by other states, tribes, and agencies
